

Text-to-Pay

Make billing and payments effortless for your customers

Text-to-Pay gives your customers a fast, convenient way to pay directly from their phones or desktop computers. With Text-to-Pay, you can meet today's consumer expectations, speed up collections, and reduce your workload—all with a simple, secure solution.

Key Benefits

- **Faster payments:** Get paid quickly—no more waiting for checks or chasing down late payments.
- **Higher response rates:** Text messages are opened and read by 95% of people, and most are read within three minutes¹.
- **Convenient for customers:** 90% of consumers prefer text over phone calls¹, and 70% want to receive payment reminders by text².
- **Reduce costs:** Save time and money by automating payment collection—no more printing, postage, or manual follow-ups.
- **Simple & secure:** Built on Worldpay's trusted infrastructure, Text-to-Pay keeps payment data secure and integrates easily with your existing systems.

What is Text-to-Pay?

Text-to-Pay lets you send invoices and payment requests to your customers by text message or email. Each message includes a secure link where customers can review their bill and pay instantly. You'll be notified as soon as the payment goes through.

With Text-to-Pay, you can:

- Boost customer engagement and satisfaction
- Accelerate your cash flow and improve financial stability
- Reduce manual work and operational costs
- Offer a modern, contactless payment experience
